

Solar Compact System (Apollo-10W)

Apollo-10W	DESCRIPTIONS
Applications	<ul style="list-style-type: none"> a. A solar compact system driving up to three 12V DC lamps b. A charger for Fixed Wireless Phones, cellphone and small electronics gadgets c. A home power system driving 12V DC electrical fan, TV and radio d. A camping power system driving small cooler and camping lantern e. A handy field power system driving electric screw driver, electric drill, and soldering iron
Specifications	<ul style="list-style-type: none"> a. 10W multi-crystalline silicon (tempered glass encapsulated) b. 12V/7Ah sealed maintenance-free lead-acid battery (by Unikor Korea) c. Input: two separate charging outlets for sunlight or regular 110V/220V AC d. Output: one DC 6V outlet & three DC 12V outlets
Accessories	<ul style="list-style-type: none"> a. 2pcs 12V/5W fluorescent lamps and lamp holders included a. Power cable for cellphone charging included b. One Nokia cell phone adapter plugs included c. Multi-purpose adapter plug for small digital electronics included e. 110V/220V AC universal charger (optional) f. 12V/5W DC electrical fan (optional)
Packaging	<ul style="list-style-type: none"> a. Carton size: 40cm×30cm×30cm (2 units per carton) b. Carton volume: 0.036m³; Carton volume weight: 6kg c. Carton gross weight: 12.5kg; Carton net weight: 10.5kg c. Q'ty/20"FCL: 1,554pcs; Q'ty/40"FCL: 3,166pcs
Features	<ul style="list-style-type: none"> a. A universal solar power system for family, office, camping events, as well as field works b. An alternative power solution for areas short of public utility c. Compact, durable and highly efficient

SPS-20

1. Features

- High efficiency : 15%~17%
- Long life span. It is made of high quality solar silicon panel
- Easy to use. Put the solar panel in the sunlight directly and connect to the sock. The indicator light of laptop will be red when in use.
- Convenience. It is foldable.

2. Specification

- open size: 480*460 mm
- fold size: 220*150*25 mm
- Power: 20W
- Output : 18V/1.2A
- Solar panel: polycrystalline silicon
- Charging time: about 4 hours (this depends on different kinds of laptops)

3. Advantages

It is ideal for business trip, traveling, mountaineering, caravan, marine and camping use.

The brighter the sunlight, the stronger the charging current.
